SQ NUTS

SEWER CAP/PLUG REMOVAL TOOLS

Stop wasting valuable time on stubborn sewer caps!

A must-have for professionals who deal with sewer plug removal.

Ideal for plumbers, sewer inspectors, sewer repair companies, wastewater districts, and more!

Small Business Spotlight!

After suffering a dislocated finger, Sq Nuts founder Dave Wilson decided to design a tool to remove sewer plugs and caps. His journey began in his garage in 2019 working by trial and error. Starting with made to order 4 inch sewer cap tool he expanded the line to the five combination sockets sold today. Mass production started in 2021 after successfully receiving patents for his products. Today Sq Nuts are in high demand. Plumbing and Sewer professionals agree "Why did it take so long?"

- Five combination sockets (ten tools, total), including a 3/4" reducer
- Handy carrying case
- Made from high-grade aluminum for ease of operation
- Fits multiple size PVC/ABS sewer caps
- To be used with 1/2" drive ratchets, 1/2" drive socket extensions or impact drivers
- Full manufacturer replacement if any included tool should fail within the first year.
